DIGIMATIC HEIGHT GAGE

SERIES 192 - Standard Type with SPC Data Output

FEATURES

- Easy to use standard type.
- Carbide tipped scriber is provided.
- Double column structure ensures high measuring accuracy.
- Coarse/fine feed switching.
- Switchable resolution
- Two preset reference height

TUBULAR INSIDE MICROMETERS

SERIES 137 - Extension Rod Type

FEATURES

- Wide Range of ID measurements by
- Combining extension rods (pipes) and anvils with the micrometer head.
- Carbide-tipped measuring faces are available.
- Supplied in fitted plastic case except 1500 mm/60" come in wooden case.

137 - 101

137 - 205

103 - 137

OUTSIDE MICROMETERS

SERIES 103

FEATURES

- Hammerstone, baked-enamel-finished frame.
- Ratched stop for exact repetitive readings
- With a standard bar except for 0-25mm model.

24165

20465

DIAL INDICATORS

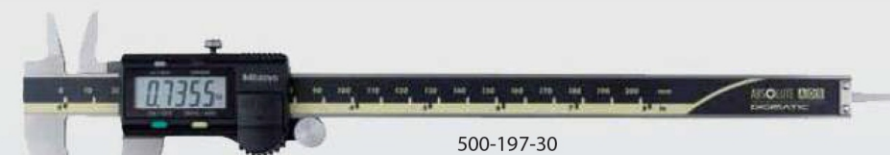

SERIES 2 - Standard Type, Inch Reading
Series 2 - Metric Standard Type

ABSOLUTE DIGIMATIC CALIPER

SERIES 500 - With Exclusive Absolute Encoder Technology

FEATURES

- High quality guide surface finish for smooth slider movement.

500-197-30

0-12"/0 | 500-754-10" | +/-0.0015" | .0005"/0.01mm

BORE GAGES

SERIES 511 - for Small Holes

FEATURES

- Its interchangeable anvils are made of alloyed steel.
- The dial indicator is fully protected by a rugged cover.

HC SERIES

ADVANTAGES

- Material: Tungsten Carbide Micro grade
- Special designed cutting edges.
- The special tooth arrangement makes cutting smooth.
- Can be run at higher speeds and higher feed rates.
- Can bore steel and for heavy-duty works.

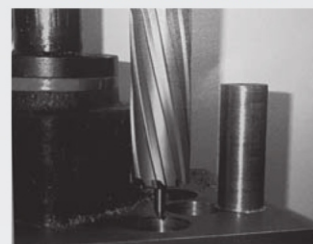

APPLICABLE MACHINE

- Any brand of magnetic drilling machines.

HIGH PERFORMANCE

GENUINE **PLASTIGAGE** USA

SEALED POWER

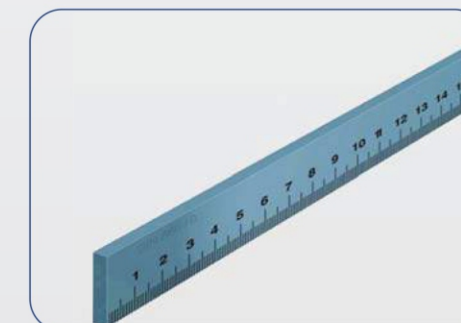

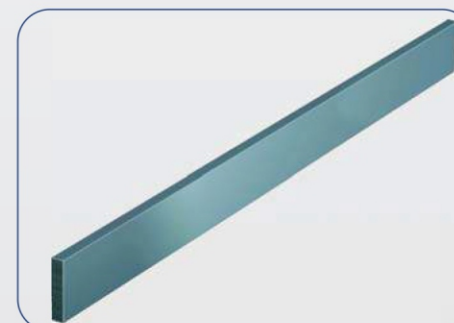

The fast and accurate way to check bearing clearance.
Made from a special extruded plastic thread with accurately controlled chemical properties, Sealed Power® Plastigage® provides a fast and accurate way to check bearing clearances.

Plastigage is packaged in a calibrated envelope that not only protects the plastic threads, but also also serves as a scale to measure the bearing clearance. One package contains enough Plastigage to check both main and connecting rod clearance for one engine.

Connectors:
Ball chain attaches to both end to create chain loops or to splice chain together.

Couplings:
Hole in the back of the connector can be used to loop the chain, attach ring or other fitting for added versatility.

AD Couplings & End Rings:
Attach the chain at one end and fix the other end with a rivet, screw or ring for a permanent attachment.

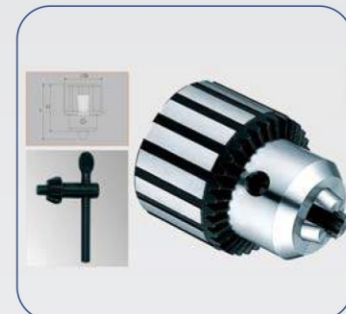

D Coupling:
attach the chain at one end and fix the other end with rivet, screw or ring for a permanent attachment.

Pendants:
Ideal for chain pulls on lamps and ceiling fans
